

Technical sheet

article:

felt

typology :

molton

description:

characteristics

composizione

100% virgin polyester

final weight

900 gr/mtq

thickness

9 mm.

softening point

210° C.

melting point

230° C.

weave

garfish

note

characteristics may change among commercial tollerance.

during daily use could appear a progressive shrinking

does not contain lead, hexavalent chrome, mercury, Biphenyl polybromide, cadmium, Phenyl ether polybromide,
in conformity with guideline 2000/53/CE - RoHS
